

22 April 1959

MEMORANDUM FOR THE DIRECTOR

1. This memorandum recommends action in paragraph 2.
2. Recommend your next major public address be on the Sino-Soviet Bloc with major interest on Red China. Red China has recently announced an increase in its military budget and in its foreign aid program and has claimed advances in oil, steel and etc. It seems to be a subject that would merit your attention since so little is known in the United States from a responsible source.
